

2005 NSLS Users' Meeting

May 23-25, 2005

Brookhaven National Laboratory
Upton, NY

"where science shines"

Main Meeting

Tuesday, May 24: scientific talks, NSLS facility update, DOE update, poster session, vendor exhibits, beginning at 8:30 am

Workshops

Monday, May 23

- Nanomagnetism: Materials and probes
- Imaging nanoscale structure in biominerals: New results and challenges
- The impact of cryogenic specimen automounters on the future of macromolecular crystallography

Wednesday, May 25

- Spectroscopic studies of nanoscaled systems
- Application of small angle x-ray scattering to biological structures
- In-situ kinetic analyses in environmental systems
- Electrical safety in the research community

Social Events

Monday, May 23: welcoming reception during poster session and vendor exhibits, hors d'oeuvres, live music, 5:00 - 7:30 pm

Tuesday, May 24: meeting banquet, 5:00 - 9:30 pm

Deadlines

Friday, April 15: registration for non-US citizens

Friday, April 29: registration without late fee

Friday, May 6: poster abstracts

Registration and complete meeting information can be found on the web at:
